

# City of College Park

## Complete Streets Workshop | April 8th @ 7pm

### What is a Complete Street?

A roadway where the entire right-of-way is designed and operated to enable safe access for all users: Pedestrians, bicyclists, motorists, and transit riders of all ages and abilities.

**Wednesday, April 8<sup>th</sup>**  
**7:00 PM**

**City Hall Council Chambers**  
**4500 Knox Road**

The City of College Park invites you to an informative presentation and hands-on workshop to re-imagine active transportation within our city. Join us and our consultants, Kittelson and Associates, to provide your input and see how we can make our streets more accessible and more pleasant for everyone to enjoy.

This workshop is made possible through a technical assistance grant from the Transportation / Land Use Connections (TLC) Program of the National Capital Region Transportation Planning Board.

### Why are Complete Streets Important? They:

Increase Safety  
for Pedestrian,  
Bicyclists, and  
Motorists

Support Vibrant  
Communities

Expand One's  
Ability to Move  
Around

Support Healthy  
& Sustainable  
Communities
