If I Were Mayor

By: Sheila McGee

Hollywood Elementary

Teacher: Allison Pascucci

If I were Mayor, I would create more activities to make sure our city is clean and the citizens are healthy. I would work with the councilmembers to organize a day called "Healthy, Fit, and Fun Day". I would also organize and promote a city clean-up activity for the citizens of College Park.

For Clean-up Day, I would engage local businesses and schools by offering money to businesses and supplies to schools for participation. The more employees and students that participate in the Clean-up Day, the higher the donation from the city would be. Neighborhoods would be encouraged to join as a group, and the neighborhood with the highest participation would win a new playground, to help keep the children active.

The Healthy, Fit, and Fun Day will offer ways to educate people on a healthy diet and exercise. There will be free checkups for citizens of College Park, and fun activities for all ages, like a dance party and a race. I will ask businesses to donate prizes or money for prizes. There will also be doctors to give free checkups and maybe medicines, too. For everyone who attends, we would give them a "Healthy, Fit, and Fun" baseball cap.

The city would advertise both opportunities by putting up flyers in the neighborhoods, sending flyers home from school, posting on the city website: <http://www.collegeparkmd.gov/> and putting an ad in the newspaper.

In conclusion, I would work with the city council and the citizens of College Park to make those activities happen so that College Park is the greatest place to live.
