Mayor Muriel Bowser
John A. Wilson Building
1350 Pennsylvania Avenue NW
Washington, DC 20004

Dear Mayor Bowser,

On behalf of the College Park City Council, I am writing to ask your assistance in preventing future noise disturbances to the residents of College Park, Maryland. Again, this past Saturday, April 29, 2023, residents of College Park and surrounding areas experienced hours of the same thumping sounds from the Project Glow festival at RFK Stadium Festival Grounds as was experienced last year.

On Saturday, the College Park Code Enforcement and Prince George's County Police responded to dozens of noise complaints to 9-1-1 for hours before determining the source of the noise. Our Director of Public Services was able to contact the DC OHS Duty Officer on Sunday morning to request that the responsible DC agency be requested to prevent this area-wide loud bass sound during the scheduled concert on Sunday.

We are asking that you direct the responsible DC event permitting and enforcement agencies to require that all future concerts be required to control their sound level to stay within the festival area, and prevent area wide noise disturbances.

Thank you for your attention to this matter. If you need additional information, please feel free to contact our office. I appreciate your leadership in the National Capitol Region.

Sincerely,

Denise C. Mitchell
Mayor Pro Tem

Comments:

Mayor Pro Tem Denise Mitchell and City Council Members,

On behalf of myself and the other 100+ members of Terps for Bike Lanes, I want to add my support for the creation of the proposed Bicycle and Pedestrian Advisory Committee. Cyclists and pedestrians can often feel like second-class citizens in American cities and it is important that we can easily get our voices heard by our local government. I'm excited for how this committee could move us closer toward greater sustainability and toward a safer environment for all people in College Park.

Signed,

John Evans
University of Maryland graduate student and seven-year College Park resident
